

OBJECTIVES

GK Construction Environmental Management System in time will have developed so that all our key issues pertinent to all our sites will have been addressed.

Our Environmental Management System will be paying particular attention to the following policy objectives.

- Minimise the Environmental impacts of existing activities/processes and to ensure that the implications of any new processes are fully assessed prior to introduction.
- Manage and control effectively and efficiently authorised processes.
- Disposal of wastes, and effluent in a safe and responsible manner.
- Reduce and limit the likelihood of environmental accidents and incidents, by the proper use of risk assessments and action planning.
- To strongly promote control and ownership of environmental issues at departmental levels.
- Provide all necessary training and update training and support to staff in order to ensure that the company is able to fulfil its commitments to the Environmental Policy and sustainable development.
- Introduce and promote programmes, whose aim is to minimise waste.
- Introduce and promote programmes, which minimise energy use through efficient energy management.
- Being considerate to our neighbours whilst conducting our day to day work activities.
- Ensuring continuous improvement in our waste control and management systems, in line with our Health Safety and Environmental Plan.
- Develop systems which promote best environmental practice, covering both design and development.

It is GK Construction's philosophy to safeguard the environment in which we work and any adjoining environment in order to support sustainable development, whether it be at the Company's construction sites or offices and to ensure the relevant Environmental Health, Safety and Welfare Legislation, associated Codes of Practice and Environmental Standards are complied with.

We have implemented our Environment Management System which ensures that all employees work to satisfy the requirements of ISO 14001 and have set measurable objectives to monitor this.
